Professional Summary

Civil Engineer, Project Manager, and Certified Arbitrator with over 15 years of experience delivering complex construction projects across Saudi Arabia and Egypt. Skilled in project planning, feasibility studies, cost estimation, and full lifecycle management. Proficient in BIM tools, especially Autodesk Revit, and experienced in leading multidisciplinary teams.

Recognized as an **Arbitrator at the Arab Centre for Arbitration and the Arab International Court of Arbitration – Canada**.

Led technical studies and design evaluations for **precast concrete buildings**, ensuring structural integrity, cost efficiency, and regulatory compliance. Project portfolio includes educational campuses, housing complexes, commercial malls, and healthcare facilities.

Education

Bachelor of Science in Civil Engineering, Assiut University, Egypt, 2009

Key Skills

Project Management, Feasibility Studies, Cost Estimation, Value Engineering, BIM (Autodesk Revit), Microsoft Project, AutoCAD, Primavera, Team Coordination, Safety Compliance, Technical Submittals, Regulatory Compliance

Professional Experience

Deputy Director – Technical Office (Studies, Planning & Cost Evaluations)

Al Rajhi Development Limited Company – Riyadh, Saudi Arabia

May 2023 – Present

Led comprehensive feasibility studies and cost evaluations to support executive decision-making and investment prioritization.

Utilized **Autodesk Revit** for integrated analysis of architectural and structural models, enhancing coordination and reducing rework.

Delivered **value-engineering solutions** achieving **10–15% cost savings** across major projects.

Actively supported **business development**, contributing to strategic proposals and expanding the client base.

Ensured all technical documentation aligned with **client expectations, local regulations, and project standards**.

Key Projects: Educational Campuses (Jubail), Housing Complex (Khamis Mushait), Commercial Mall (Asala District), Residential Villas (Al Khayal), Apartments (Osus), Healthcare Clinic (Royal Guard), Early Childhood and School Complexes (TBC).

Project Manager

Al Rajhi Development Limited Company – Saudi Arabia

Feb 2013 – May 2023

Managed +10 educational and commercial projects (300M SAR).
Oversaw project budgets, timelines, procurement, and vendor coordination.
Led technical reviews, submittal approvals, and site inspections.
Ensured project compliance with schedule, safety, and regulations.
Supervised structural work and multi-disciplinary teams.

Site Engineer

Major Projects Management Unit – Egyptian Armed Forces, Alexandria, Egypt

Apr 2010 – Oct 2012

Supervised construction of 17 residential buildings under the National Housing Initiative.
Oversaw construction of the Nubian Resettlement Project: 88 homes, mosque, market, police station, and supporting infrastructure.
Managed site activities, subcontractors, and material logistics.
Reviewed drawings and ensured accurate on-site execution.
Monitored progress, quality, and compliance with military standards.
Ensured quality control, schedule adherence, and compliance with design specs.
Coordinated with design teams to resolve site issues and support successful project delivery.
Resolved technical issues and supported inspections and handovers.

Design Engineer

Engineering Consulting Group – Egypt

Jul 2009 – Mar 2010

Designed sanitation networks for **6 villages in Upper Egypt**, including **gravity drainage lines** and **sewage lift stations**.
Prepared technical drawings, hydraulic calculations, and BOQs in coordination with local authorities.
Ensured designs met **national standards**, supported project approvals, and implementation readiness.

Certifications

The comprehensive Arbitration Program, Autodesk BIM Training
