

BASHAR ABD AL RAOUF AL-MAREE

PERSONAL INFORMATION:

NAME: **Bashar Abd Al Raouf Al-Marie**
Email: **ABDALRAOUF_BASHAR@yahoo.com**

MARITAL STATUS: **Married**
Mobile: **0599-877225**
DATE OF BIRTH: **1980**
NATIONALITY: **Palestinian**
PROFESSION: **Civil/ Infrastructure Engineer**
YEARS IN THE PROFESSION: **22years**
PLACE of RESIDENCE: **Tulkarm-Deir Al Ghosoun**
EDUCATION: **B.Sc., Civil Engineering, An-Najah National University, Nablus, West Bank, 2004**

PROFESSIONAL MEMBERSHIPS: **Engineers Association, Jerusalem Center**

KEY QUALIFICATIONS:

I have abroad knowledge in the fields of civil engineering, in general, and the infrastructure engineering specifically. I worked as a Quality control engineer with MWH Co for Infrastructure Needs Program (INP) Phase IV, and funded by USAID. I worked as project manager for several infrastructure projects funded by USAID, UNDP, AFD, KFW, IDB, CHF, etc. I have the ability to work under pressure and in the team environment. Strong management and supervision experience related to road, water, waste water construction and vertical structures. He has proven management experience in the technical and administrative monitoring and oversight of internal and external infra-structure works, including ensuring compliance with contract drawings and documents, managing work in progress, project planning, QA/QC for materials and executed works, preparing and approving submittals, project reporting and approvals , general contractual liaison with owner/client, contractor and local authorities, including final inspection /testing/ commissioning up to handing over the project. I have experience implementing water, waste water and other infrastructure projects for international donors including USAID, EU, RAFEED, and EC. I have also

executed complex infrastructure road construction projects for Palestinian municipalities, ministries, and local/international NGOs. I'm fluent in both Arabic and English.

I have good knowledge of dispute resolution councils and arbitrations.

COMPREHENSIVE EXPERIENCE:

◆ **Dec 2012- Until now:** *projects Manager, Dar albina Co.* at the following project :

- ◆ Implementation of Sewerage Networks in zmout, Deir Al-Hatab, and Salem
- ◆ Construction, finishing and maintenance of filed works and commercial buildings
 - ◆ Sewer Network Package 3 - Salfeet
 - ◆ NEDCO Warehouse Administrative Building.
 - ◆ Rehabilitation for internal roads in Qablan Village
 - ◆ Construction of Al khwaja Factory.
 - ◆ Rehabilitation for internal roads in Aqraba Village.
 - ◆ Rehabilitation for internal roads in Al Mazra Al grbia Village
 - ◆ Replacement of internal water Network and Rehabilitation water reservoir at Mrda Village
 - ◆ Rehabilitation for internal roads in Al Mazra Al grbia Village
 - ◆ Rehabilitation for Ein Al Saltan road in Jericho City.
 - ◆ Rehabilitation for internal roads in Meslia Village
 - ◆ Rehabilitation for internal roads in Asiera al Shmalia Village.
 - ◆ construction of water reservoir at Al Araqa Village
 - ◆ Construction of New Internal Water Network in Faquaa
 - ◆ Rehabilitation for internal roads in Kufradan Village.
 - ◆ Rehabilitation for internal roads in Jericho City.
 - ◆ Rehabilitation for internal roads in Wadi Alfarie Village.
 - ◆ Replacement of internal water Network and construction of water reservoir at deir Abu Mash'l Village - Ramallah Governorate.
- ◆
- ◆ Rehabilitation and paving roads in Burqien (Burqien Municipality) ,
- ◆ Rehabilitation and paving roads in Jenin-Burqen (ministry of public work and housing)
- ◆ Rehabilitation for internal roads in Kufradan Village.
- ◆ Construction of Salfet closed hall
- ◆ Projects Manager in Rawabi City - Representative of Dar Al -binaa company at the following project 2012-2015

◆ **at Rawabi City**

- ◆ Backbone Infrastructure project (Sewer, Storm ,Potable water, non-Potable water) more than 10Km
- ◆ Gas Terminal
- ◆ Specific Area (Parking)
- ◆ Retaining walls for Boulder Wall
- ◆ Non Potable tank and Retaining wall
- ◆ Road(Curbstone, Culvert ,ditch.....)about 7Km

- **July.2012– Dec 2012:** project Manager, Aldwekat Co. Al Reehan Neighborhood Housing Project near Ramallah City (infrastructure project).

- **Sep.2011– July.2012:** Site engineer, Consolidated Contractor Co (CCC). Al Reehan Neighborhood Housing Project near Ramallah City (Road and infrastructure project).

- **Sep.2010– Sep.2011:** Resident engineer, MWH Co. Rehabilitation of Beit Dajan, Deir Al Hatab, Salem internal roads and milling of HWY 57(17km) and the project is funded by USAD.

- **Dec.2009– Sep.2010:** Resident engineer, MWH Co. Rehabilitation of Einsibli – Al Hamra Road (7 km) & Al Zbidat internal Roads(1.5 km) and the project is funded by USAD.

- **Agu. 2009 – Dec.2009:** projects Manager, Stones Machines and Contractors' Diamond and Stone Co. Works include the following:

- * Rehabilitation for AL Swietat- Arab American University Road, about 4km.
- * Rehabilitation for internal roads in ALFondogomeh.
- * Rehabilitation for internal roads in Jenin camp.
- * Construction roads for Engineers Association housing in jenin

- **Jan. 2009 – Agu. 2009:** Site Engineer, Ocean Infrastructure & Investment Co. Rehabilitation of Arabeh Intersection -Yabed Road. The main contractor IRD and the project is funded by USAD.

- **Sep. 2007- Jan. 2009:** Projects and supervisor Engineer, Deir Al-Ghosoun Municipality. Works include the following:

- ◆ Rehabilitation for internal water network in Deir Al-Ghosoun. The length of the network is about 4km, with 130 house connections.
- ◆ Rehabilitation for internal roads in Deir Al-Ghosoun.
- ◆ Construction of Deir Al-Ghosoun Public Park.

♦ Construction of Deir Al-Ghosoun Basic School.

- **Sep. 2006- Sep. 2007:** Working in the Ministry of Public Works & Housing. Works include supervise the following:
 - Manager of verifications and quantities department in the West Bank.
 - Maintenance of the Palestinian Legislative Council building.
 - Maintenance of the Palestinian Council of Minister headquarters building.
 - Construction of the Ministry of Finance building.
 - Rehabilitation of Qusra-Talfeet road, about 4km.
- **Sep. 2005-Jul. 2006:** Site Engineer, Al-Qasabah Company. Works include: Construction and Furnishing Jab'a Health Center.
- **Jul. 2004-Sep. 2005:** Site Engineer and Quantity surveyor, Al-Qasabah Company. Construction and Furnishing Al-Hamadallah Basic School in Tulkarm.
- **May 2005-Jul. 2005:** Site Engineer, Al-Qasabah Company, Rehabilitation of Internal Roads in Illar.
- **Jan. 2005-May 2005:** Site Engineer, Al-Qasabah Company, Rehabilitation of Internal Roads in Anabta.

COMPUTER SKILLS:

- ♦ Have extensive experience in computer applications; . COMFAR, Photoshop, Sap2000, ATIRE (design civil engineering program).
- ♦ Other Software: Computer Aided Design and Drafting (AutoCAD), ACCESS, MsProject, Excel, MsWORDS, Power Point, Outlook.

OTHER SKILLS:

- ✓ Holds arbitrator certificate from the Palestinian Ministry of Justice.
- ✓ Training course in Imperial Land Law that held at A Taleea for legal solutions & arbitration in September 2021.
- ✓ Training course in contract drafting that held at A Taleea for legal solutions & arbitration in September 2021.

- ✓ Training course in Arbitration and disputes in the engineering and construction contracts held august 2020 by Arab Engineering Union, Arab Authority for engineering arbitration& Jordan Engineers Association.
- ✓ Completed the FIDIC Training program on: **Module 2: Management of Claims and Dispute Resolution Under the FIDIC Contracts** held on November 2019 provided by FIDIC with support of: Jordan Engineers Association (JEA),Engineers Training Center (ETC) and Architects /Engineers Business Council (A/EBC) Amman ,Jordn.
- ✓ Completed the FIDIC Training program on: **Module 1: The Practical use of FIDIC Conditions of Contracts** held on Agust 2019 provided by FIDIC with support of: Jordan Engineers Association (JEA),Engineers Training Center (ETC) and Architects /Engineers Business Council (A/EBC) Amman ,Jordn.
- ✓ Completed the FIDIC Training program on: **Module 4, FIDIC Contracts ADMINISTRATION**
- ✓ Completed the FIDIC Training program on: **Module 3, Dispute Adjudication Boards duties and responsibilities**
- ✓ Course in Artificial Intelligence
- ✓ Hold a certified certificate in fundamental training of trainers (TOT) from Canada Global Center.
- ✓ Training course in Arbitration that held at A Taleea for legal solutions & arbitration in September 2016.
- ✓ Training course in Legal aspects of the obligations of the parties according to (FIDIC) that held at A Taleea for legal solutions & arbitration in September 2016.
- ✓ Valid membership in Engineering Association, Number (1/17538).
- ✓ Ability to work under pressure and team working member or leader
- ✓ Valid Driving License.
- ✓ Excellent Communications.

EXPERIENCE:

Project manager: responsible for the successful overall management of the assigned Project, technical quality, schedule planning, project staff coordination, client communications, negotiations, scopes and fees, billing, and client follow-up maintenance

I worked in the field of engineering arbitration and in dispute resolution councils for a number of cases.

Assure complete compliance with contract drawings, specifications. Coordinate daily with the Project Inspector and Project Superintendent over all problem areas concerning Quality. Keep a current copy of the drawings to include as-built.

Supervised the construction activities to maintain quality according to contract documents and related civil specifications.

Conducted project quantity surveying and measuring, site and activities management, impact measuring, beneficiaries' classification, and outputs identification factors.

Reviewed the design drawings to determine when field changes could be made to increase effectiveness and reduce cost while meeting project specifications.

Responsible for the implementation of all QA/QC efforts, the site safety program, and traffic control plan.

Supervise monthly progress reports that included: project staffing, scopes of work, progress of the work versus constructional schedule, project obstacles, financial summaries, cash flow, inspection logs, sample approval logs, shop drawing logs, project summary charts, and selected photos.

Prepared project proposal, tender documents, design drawings and also provided expert engineering advice on a wide variety of infrastructure projects
