## STRUCTURAL ENGINEER

Riyadh | 0532302424 | salehalsamil@hotmail.com

---

### PERSONAL STATEMENT

Experienced Structural Engineer with 28 years of expertise in structural analysis and design—including buildings, commercial centers, high-rise buildings, housing projects, and mosques—complemented by 10 years of project management experience. Seeking a challenging structural engineering role where I can contribute technical expertise and leadership to impactful projects.

---

### EDUCATION

BS in Civil Engineering, Damascus University, 1997.

---

### PROFESSIONAL EXPERIENCE

#### Civil Engineer / Project Manager, Arabian Oud Company

Sep 2016 - Present

- The company's projects include a new factory, new warehouses, private buildings, and villas, as well as the renovation, reinforcement, and rehabilitation of factories, old warehouses, and the administrative building.
- The role also involves following up on construction maintenance work for all company facilities across the Kingdom.
- Review the design of all civil and construction works (tender drawings), define specifications, and prepare tender documents for all company projects.
- Review the bills of quantities (BOQs) in coordination with the Architectural and Electromechanical Engineering Departments.
- Select contractors and supervise them during all project phases, ensuring coordination of all related work.
- Supervise all executed work and conduct inspections at each stage of the structural and civil work.
- Serve as Technical Office Manager, including the approval of shop drawings, materials, and contractor payments.
- Coordinate with the consulting office regarding design concepts and design drawings.
- Manage and coordinate technical projects.
- Review contractors' financial payments.
- Process the disbursement of all contractors' dues across all projects.
- Research and evaluate emerging technologies.

#### Technical Office Manager / Civil Engineer, MIZAT Development Company

Feb 2014 - Feb 2017

- Supervised and managed the implementation of multiple housing projects in Riyadh.
- Served as a consulting civil engineer and design engineer.
- Acted as the owner's representative.
- Worked as Technical Office Manager, overseeing shop drawing approvals, material approvals, and contractor payment reviews.
